

# *Indoor Plants to Improve Air Quality*

## **ARECA PALM** (*Dypsis lutescens*)

It removes a variety of toxins, especially formaldehyde and adds humidity to air.

## **MONEY PLANT** (*Epipremnum aureum*)

Money plant sucks up formaldehyde and other pollutants and absorbs benzene.

## **SNAKE PLANT** (*Sansevieria trifasciata*)

It is one of the best plant at filtering out formaldehyde, nitrogen dioxide. At night, it takes in carbon dioxide and releases oxygen.

## **SPIDER PLANT** (*Chlorohytum comosum*)

It removes formaldehyde and also battles benzene, carbon monoxide and xylene.
